

Dear Skeptic,

It seems that all of the prominent skeptics have gone very silent, subsequent to their failed attempts to debunk and discredit the Billy Meier UFO contacts, still ongoing in Switzerland for over... *77 years*. As I reported, not a one of the 30+ skeptics I recently reached out to wanted to, er, *revisit* the Meier contacts, i.e. interview, debate me, etc.

As the saying goes, you can run but you can't hide. Well, maybe you *can* hide but it's a rather cowardly thing to do. After all, you had no trouble defaming Meier, hurling unsubstantiated accusations about "hoaxing" evidence and information... *all* of which have been proven to be false.

So, in addition to the promo piece below*, I'm including a few additional links for you:

Providing references to independent, expert analyses and authentication of evidence is *not* an "appeal to authority". You really can't have it both ways. The *real* experts show that, to put it politely, your hasty conclusions were simply... *wrong*:

***Has ET Contact Already Occurred?**

Harvard Prof. Avi Loeb's search for extraterrestrial life has given this once marginalized topic renewed international interest among inquisitive scientists, professors and students. Obviously, the confirmed existence of an extraterrestrial race would be the most important development in all of human history, exceeded only by actual...*contact* with that race.

Has that contact *already* occurred and wouldn't *you* know about it if it had?

The Billy Meier UFO Contacts

Research scientist Michael Horn claims that his 40 years of investigation has been pivotal in establishing the singular authenticity of the Billy Meier UFO contacts, said to be still ongoing in Switzerland for over...77 years. The definitive analysis of Meier's evidence, conducted over an eight-month investigation by the former top USAF OSI investigator-supervisor **Joe Tysk**, proved conclusively that it's ironclad, effectively ending any credible skeptical challenges.

Horn, a frequent media guest who's regarded as "the leading authority on UFOs" by George Noory, also counts among his team members **Kenneth Smith**, the VP-Operations Director at **Orbital** Launch System Group (Ret), who served under retired astronaut, Ronald Grabe and **Harry Lear** (Pentagon and Saigon Vietnam MACV HQ in SSD ACSI Special Security Detachment Assistant Chief of Staff Intelligence Top Secret Crypto EO NOFORN other classified special access codes – 1965-67 US Army).

Evidence

In addition to Meier's still irreproducible UFO photos, films, video, metal samples and sound recordings, beginning in the 1950s, Billy Meier was provided voluminous information by the Plejaren extraterrestrial human race that precisely foretold manmade climate change, global warming, environmental destruction, the Iraq wars, fall of the

Berlin Wall, water on Mars, Io's volcanic activity, and *hundreds* more specific examples of prophetically accurate *scientific* information.

Proof that Meier published these long *before* “official discovery” is established by...*copyrights*, the internationally recognized, legal standard of proof of first publication.

A few of Meier's *independently authenticated*, 1,200+ *pre-digital* era UFO photos, 1975 – 1981

NOTHING TO BELIEVE

Most people still don't know about Billy Meier's evidence...despite the fact that one of his 1975 UFO photos was modified and used in the famous ***I WANT TO BELIEVE*** poster on the X-Files:

However, there is nothing to *believe*. We freely offer you the independent expert analyses and authentication of Meier's UFO evidence, as well as the impeccably accurate scientific information, etc., so that each person can decide the truth for themselves.

OUR FUTURE SURVIVAL

The unasked question is, "If there really are UFOs and extraterrestrials visiting our world, what is the...*reason* for them?" It certainly isn't for us to chase lights-in-the-sky, nor to create careers for "UFO experts".

The actual reason is to help us assure our own, very threatened future survival. And, along with their warnings, we freely offer the clear, specific recommendations of the Plejaren extraterrestrial space-traveling human race for overcoming the severe environmental, geopolitical and other challenges that we face.

BLACKLISTED

For his trouble, Billy Meier has had 23 attempts on his life, kidnapping attempts against his children and been effectively blacklisted in all major news media.

Why?

The easiest way to find out is to pose your questions and challenges to Michael. You and your audience can then decide for yourselves if this is the longest running, most impenetrable hoax...or the most important true story in human history.

“Michael Horn is the world’s leading authority on UFOs.”

George Noory, Coast to Coast AM

(after Horn’s 20th appearance on C2C)

*“But, to reflect on the statement that’s in the film, I also remember seeing a shot on the Super8 reel that showed a **UFO circling around a fairly tall tree**. According to that shot, we said that we can’t conclusively say whether it’s real or not, but it seemed impossible to stage that kind of a shot with a miniature (it would have to be hanging on a very tall crane, with wires – but even then the movements would be hard to achieve.) So, yes, in regards to that shot, we mentioned that we could definitely do it today with CG, but at the time these were supposedly shot – it would have been very hard, probably even impossible, to fake this kind of shot.”*

Now that we know...what will we do?

Interviewing Michael Horn is a good place to start.
